EXPERIENCE

Web Developer Intern

NextGen Software Hub Pvt. Ltd. Feb 2025 - Present

- Enhanced website interface through collaboration with developer colleagues.
- Contributed to the development of backend project APIs, focusing on creating scalable and efficient solutions.
- Stayed updated with the latest software technologies and tools for implementation in various projects.

ACADEMIC PROJECTS

Spring-Stream APIs[Ⓢ]([go-live](#))

Engineered a scalable RESTful API ecosystem with secure user management, job-domain tracking, and admin utilities. Integrated Spring Security for authentication, Redis caching for performance, and MongoDB Atlas for cloud data storage. Enhanced developer experience with Swagger documentation and implemented a Weather API for real-time personalized greetings.

HalfGrade Quiz[Ⓢ]([go-live](#))

Developed an interactive quiz platform enabling users to take quizzes seamlessly with real-time scoring, a timer, and a high-score leaderboard in a user-friendly environment.

FeedCart E-Commerce Platform

Designed and implemented an online shopping website with product search, user authentication, and a responsive UI for a smooth customer experience.

Online Ticket Reservation

Designed a web-based train ticket booking system with a centralized network. Users can select trains, choose travel dates, and book tickets through an interactive form.
